He is working on getting a national OHLAP program started. OSU and OU are at the bottom of the Big XII in tuition costs. The state regents are going to be asking for increased funding for higher education to help keep tuition costs down and to hopefully increase salaries. A Healthcare Costs Taskforce has been put together. The taskforce will work on solutions for decreasing healthcare costs. The president is also interested in energy conservation. There will be consultants on campus to work on
finding ways to decrease energy costs. Mr. Shutt also discussed the Master Plan. There are multiple construction projects occurring on campus. Joe Weaver is responsible for the Master Plan. A time capsule from 1928 has been found in one of the cornerstones at the Dairy Barn.

**Old Business**

**Tobacco Free –** The SAC officers met with Dr. Bosserman and discussed the Tobacco Free recommendation. OSU has received a $500,000 grant to help students, staff and faculty to quit smoking. OSU needs to enforce the 25 foot rule regarding smoking around the buildings. A comment was made regarding an incentive on our health insurance costs if the campus went tobacco free.
Salary Books OnLine – Dr. Bosserman informed Carey that the council needs to vote today regarding this recommendation from the Faculty Council. The Faculty Council passed the recommendation with a 14-9 vote. After much discussion both for and against, a motion was made to vote on the recommendation to make the salary books available online to those with OKey access. The vote was 12 support and 10 opposed. The recommendation was approved. It was noted that this will only affect the Stillwater campus.

Harvest II – Carey sent around a sign up sheet to help collect cans at Chi-O clock on Friday from 3:30 to 5:30. She also has flyers available to take back to our offices.

New Business
Key Retrieval Committee – Marsha attended a meeting regarding the key retrieval proposal. This is basically a checkout policy for employees who leave the university. Somebody asked about the parking permit. It was said that employees can turn in their parking permit and get reimbursed on a prorated basis. Marsha said that the committee was looking at that.

Mitigation Plan – Juanita spoke about the Mitigation Plan. She had handouts for the council. A copy of that handout is attached on the e-mail with the minutes.

Health Care and Wellness Task Force – Carey is the representative from Staff Advisory Council to be on this taskforce. The task force was created by President Schmidly. Carey made the point that health care costs have doubled since 2000. Dr. Bosserman discussed in his meeting with the officers about the plan at Mercury Marine. There is a $45 charge per family per month. The members covered have to go to a certain health clinic which is located on Hall of Fame by Chili’s. If anybody has any questions about the task force, they are to e-mail Carey.

Website Update – There was discussion about how often the website is updated. Right now, they are waiting on pictures from the Awards day to post on the internet. There will also be a comment about staff being able to pick up service pins at the hub in Whitehurst.
